

Child level

[Definition] C37 - Number of temperature recordings

ID	C37
Field name	Number of temperature recordings
Short name	T_number
Unit	-
Field type	Integer (6)
Obligation	M
Level	C
Domain	B,S
Group	Temp
Quality relevance	M score
Field Description	Number of discrete temperature points (e.g. number of used BHT values, log values used in probe sensing) confirming the mean temperature gradient [T_grad_mean_m repetition of one measurement at a certain depth.
Allowed range of values	0 - 999,999
Value description	-
Choice Box	no

Unique solution ID: #1058
